

Size Chart

RIB Flaring

Weight and Girth do not meet the below sizes? No worries, we can also offer a custom bracing solution through our alternate website at <https://LAPectusBrace.com> The weight range is provided just for reference; sizing should be determined by the girth measurement. However, if your weight differs from the scale then it is advisable to send us your details first so we can confirm the correct size for you.”

UNIT	SMALL	MEDIUM	LARGE	X-LARGE
Girth (in)	27-30 in	30-33 in	33-35 in	35-37 in
Girth (cms)	68-76 cms	76-84 cms	84-89 cms	89-94 cms
Weight (lbs)	90-115 lbs	110-145 lbs	140-165 lbs	155-175 lbs
Weight (kg)	41-52 kg	50-66 kg	64-75 kg	71-94 kg
